

FastTrack HVAC Pay As You Save[®]

The **FastTrack HVAC PAYS** program makes heating and cooling upgrades more affordable. Ameren Missouri helps offset upfront costs by providing rebates for high efficiency systems and covering part of the the balance of the initial system cost. You then pay that cost monthly as part of your utility bill. Your new efficient system will save you money. And since your cost savings will be greater than your monthly payment, you'll save money as well.

How does the FastTrack HVAC PAYS Program work?

1. Start by filling out an enrollment form on AmerenMissouri.com/FastTrack, select up to three participating contractors of your choice, and schedule a visit.
2. The participating contractor will determine your eligibility and walk you through the **FastTrack HVAC PAYS** offer from Ameren Missouri, which includes your up-front costs and how much will be financed on your bill going forward.*
3. When you accept the offer, the contractor will schedule and install your equipment.
4. When the project is complete, you will then pay back through on-bill financing.

*Offer applies only to qualifying purchases.
Visit AmerenMissouri.com/FastTrack for full program details.

What Rebates Are Available?

Single family residential customers living in the Ameren Missouri service area are eligible for the following rebates:

- Central Air Conditioner: up to **\$1,000***
- Air-Source Heat Pump: up to **\$2,000***
- Ground Source Heat Pump: up to **\$5,000***
- Mini Split: up to **\$500 per ton***
- Smart Thermostat: up to **\$250***

Enjoy the benefits of energy-efficient heating and cooling equipment!

In addition to rebates and spreading the upgrade costs over time, upgrading to energy efficient equipment offers multiple benefits:

- **Peace of mind**, thanks to its reliable performance
- **Comfort** throughout the changing seasons
- **Energy saving**
- **Lower** monthly energy costs
